Joseph Anthony

Web Developer & IT Specialist

PROFILE

Full-stack JavaScript developer who builds fast, secure web apps with React, Next.js, Node.js, Express.js, PostgreSQL and MongoDB, and who keeps the networks, devices and backups underneath them running reliably. Comfortable owning a project from first call to launch and ongoing support.

EXPERIENCE

Full-Stack Web Developer

2022 - Present

Freelance

- Build websites, online stores and web apps for small businesses with React, Next.js, Node.js, Express.js, MongoDB and PostgreSQL.
- Add real-time features such as live chat, notifications and dashboards with Socket.io and Firebase.
- Build and customise WordPress and PHP sites, with attention to speed, SEO and security.
- Manage projects from scoping and design to deployment, training and ongoing support.

IT Specialist

2021 - Present

Freelance and contract

- Set up and secure office networks, Wi-Fi and devices for small teams.
- Run backups, updates and antivirus, and resolve hardware, software and network faults quickly.
- Write clear guides so staff can solve common problems on their own.

SELECTED PROJECTS

E-commerce website

Full-stack web app

- Online store with a product catalogue, cart, checkout and an admin area.

Marketplace platform

Full-stack web app

- A marketplace where sellers list products and buyers browse and order.
